2010-2035 Regional Long-Range Transportation Plan

PACTS
Portland Area Comprehensive Transportation System

Destination Tomorrow 2010

Linking our Communities – Advancing our Region
2035 Long Range Transportation Plan

By **PACTS**

The Metropolitan Planning Organization (MPO)
for the urbanized area of Portland, Maine

Adopted by the Policy Committee of the
Portland Area Comprehensive Transportation System

April 2011

Members of the 2010 Destination Tomorrow Update Committee

Dan Bacon, **Chair**, Scarborough Town Planner
Mike Bobinsky, Public Services Director, Portland – *Policy Committee*
David Cole, Gorham Town Manager – *Policy Committee*
Sara Devlin, Government Relations Assistant, Maine Turnpike Authority
Kathi Earley, Portland, Engineering Manager – *Policy Committee*
Hilary Frenkel, appointee to Transit Committee, League of Young Voters
Tex Haeuser, South Portland, City Planning Director – *Policy Committee*
Alex Jaegerman, Portland, Planning Division Director
Molly Just, Westbrook, City Planner
Mike Laberge, MPO Coordinator, MaineDOT
Steve Linnell, Senior Transportation Planner, GPCOG
Maureen O’Meara, Cape Elizabeth, Town Planner
Rebecca Schaffner-Tousignant, Regional Planner, GPCOG
Sara Trafton, Executive Director, RTP – *Policy Committee*
Nat Tupper, Yarmouth Town Manager – *Policy Committee*
Jim Wendel, Scarborough Town Engineer

Staff

Carl Eppich, AICP Transportation Planner
John Duncan, Director
Paul Niehoff, Senior Transportation Planner

Introduction to the Plan

The 2010 PACTS *Destination Tomorrow* Transportation Plan

Early in the update process the Long Range Plan Update Committee discussed and deliberated over the scope of the task before them: To update the *Destination Tomorrow* long range regional transportation plan. It was understood from the beginning that the process would be quite different from the major multi-year effort for the 2003 plan, or the 2006 effort through which the original plan was updated taking into account the addition of 8 municipalities and 3 transit providers after the 2000 Census.

As a first step, the Committee reviewed the Federal requirements which require long -range plan update adoption every four years, meaning sometime in 2010.

Review of the 2006 plan led the Committee to agree that much of the planning and work outlined in the 2006 plan was still relevant and useful. Recognizing this fact, the Committee agreed that many factors had changed especially in the funding areas, and through the experience of the 2008 energy cost escalation. These and other changes needed to be identified, clearly articulated, and strategies for managing incorporated into the Plan update. The Committee's work would center on the implications of these changes for transportation planning and investments looking forward 25 years, and then making adjustments in the near term (next 4-6 years) that would prepare the PACTS' region for the transportation future we foresee and desire.

Most of the initial work of the Committee centered on eliminating and combining the layers established in the earlier plans around Vision-Goals-Guiding Policies-Objectives-Strategies layering. The Committee worked to simplify this layering, and focused on the following:

- ***Create a simplified, more usable planning document for PACTS members to use as a regular resource***
- ***Review and update acknowledging socio-economic-environment and funding changes, not a rewrite***
- ***Highlight and emphasize new and continuing strategies to focus on based on looking forward 20 years.***
- ***Create an action plan for the next four years.***

This update effort therefore is not intended to be a complete re-write of the 2006 *Destination Tomorrow* PACTS long range plan. Instead it is a document that identifies the major changes that have occurred – social, economic, and environmental – among others and an updates the regional plan for managing the changes and challenges we have identified.

Table of Contents

	<u>Page</u>
Introduction to the Plan	
Chapter 1: Executive Summary	
• Introduction	1-1
• The <i>Destination Tomorrow Plan</i>	1-2
• PACTS – Organizational Overview	1-3
• Vision Statement and Policies	1-4
• Key Findings: Present Conditions, Trends and Future Choices	1-6
• <i>Destination Tomorrow</i> Strategies	1-7
• Implementation	1-9
• Funding and Implementation	1-10
Chapter 2: Plan Background	
• PACTS – Organizational Overview	2-1
• PACTS Members and Their Roles	2-1
• <i>Destination Tomorrow</i> – The 2010 Update Plan	2-5
• Plan Purpose, the 2003 and 2006 <i>Destination Tomorrow</i> Plans’ Legacies	2-6
• New Additional Purposes of the 2010 Plan	2-9
• Plan Process and Public Outreach	2-11
• State and Federal Regulatory Context	2-12
• Southern Maine CRESTS and MainedOT Strategic Investment Plan	2-18
Chapter 3: Present Conditions, Trends, and Future Choices: Transportation and Land Use	
• Introduction	3-1
• The Transportation – Land Use Connection	3-2
• Trend: Greater Portland Land Use 1945–Current	3-3
• People, Households and Employment in the PACTS Region: 1960-2010	3-8
• Transportation Priorities Survey of Greater Portland Residents	3-11
• Regional Travel Growth, Traffic Volumes, Patterns and Conditions	3-12
• Assessment of Current Levels of Congestion and System Performance	3-18
• Transit: The Passenger Transportation System	3-27
• PACTS Region: Summary of Intermodal Issues & Opportunities	3-38
• 2035: Future Population, Employment and Land Use Development Trends	3-45
• Future Choices for the PACTS Region	3-50

Chapter 4: Policies and Strategies

- Introduction 4-1
- The Five Policies 4-2
 - Policy I – Regional Focus 4-3
 - Policy II – Maintaining and Improving the Current Transportation System 4-4
 - Policy III – Economic Development 4-6
 - Policy IV – Transportation/Land Use Connection 4-7
 - Policy V – Environmental Quality and Energy Conservation 4-8

Chapter 5: Financial Assessment: Regional Needs & Available Funding

- Introduction 5-1
- Regional Transportation Needs 5-2
- Funding Sources 5-4
- The MPO Allocation 5-6
- Anticipated Funding Shortfall 5-7
- Bridging the Funding Gap 5-8

Chapter 6: Implementation Plan

- Introduction 6-1
- Implementing *Destination Tomorrow's* Policies 6-3
 - Policy I – Regional Focus 6-3
 - Policy II – Maintaining and Improving the Current Transportation System 6-4
 - Policy III – Economic Development 6-5
 - Policy IV – Transportation/Land Use Connection 6-7
 - Policy V – Environmental Quality and Energy Conservation 6-8
- Other Important Implementation Topics 6-8
- *Destination Tomorrow* Beyond 2016 6-9
- Major Regional Transportation Projects 6-10
- Closing Thoughts 6-11

Appendices

- A. Public Comments
- B. Transportation Priorities Survey (2008)
- C. PACTS Implementation Procedures
- D. Assumptions and Methodology for Forecasts of Population, Employment and Housing ((Gorham East-West Corridor Feasibility Study)
- E. PACTS Land Use Policy
- F. Interstate 95 and 295 Strategy #16 specifics
- G. Climate Change and Transportation in Maine: *Impacts on Transportation*
- H. Federal Highway and Transit Administrations air quality conformity analysis (separate document)

Tables

- 1-120-Year Capital Needs Estimate for 2035 PACTS Plan Update 1-11
- 3-1 Population in PACTS and non-PACTS Communities in York and Cumberland Counties 3-9
- 3-2 Changes in Wage and Salary Employment 1980 – 2010 3-10
- 3-3 Average Annual Daily Traffic (AADT) Volumes in the PACTS Area 3-13
- 3-4 Miles of Roadway by Federal Functional Classification 3-17
- 3-6 Intersection Capacity Analysis – Volume to Capacity V/C) Ratio – Year 2004 3-24

- 3-7 Pedalcyclist Traffic Fatalities and Fatality Rates by State, 2008 3-26
- 3-8 Vehicle Miles and Boardings 2009-2010 3-29
- 3-9 2009-2035 Population and Household Forecasts for the PACTS Model Area 3-46
- 3-10 2035 Employment Forecast for the PACTS Model Area 3-48
- 5-1 20-Year Capital Needs Estimate for 2010 PACTS Plan Update 5-3
- 5-2 Draft 20-Year Capital Funds Available Estimate for 2010 Destination Tomorrow Update 5-4
- 5-3 Set-Asides for MPO Allocations 5-7

Figures

- 1-1 The PACTS Region 1-3
- 1-2 Potential Funding Shortfall 1-10
- 2-1 PACTS Funding, Study, and Model Areas 2-4
- 2-2 Southern Maine CRESTS and MaineDOT Strategic Investment Plan 2-17
- 3-1 Population in the PACTS Urban and Suburban Communities 3-4
- 3-2 PACTS Estimated Region Vehicle Miles Traveled 2009 3-5
- 3-3 PACTS Region Forecasted Trend Scenario Vehicle Miles Traveled 2035 3-6
- 3-4 Population in PACTS and non-PACTS Communities of York and Cumberland County 3-8
- 3-5 VMT and Population Growth in Cumberland County 3-12
- 3-6 Place of Employment Journey to Work PACTS Residents 3-14
- 3-8 Federal Functionally Classified Roadways 3-16
- 3-4 Miles of Roadway by Federal Functional Classification 3-17
- 3-9 Major Corridors in PACTS Region 3-19
- 3-10 PACTS Region Afternoon Peak Hour Congestion 2009 3-21

- 3-11 PACTS Model: Western Suburbs Peak Hour Congestion 2009 3-22
- 3-12 PACTS Model: Western Suburbs Corridors Peak Hour Congestion 2009 3-23
- 3-13 Western Suburbs: Projected High Crash Location changes 2009-2035 3-25
- 3-14 PACTS and Greater Portland Transit Providers service coverage 3-30
- 3-15 Forecast Numeric and Percent Population Increases 3-47
- 3-16 2035 Employment Forecast for the PACTS Model Area 3-49
