

RAIL SAFETY

Be **SAFE**
Around Trains!

Circle seven things you see that are **NOT** safe on or around train tracks! Can you find four things that **ARE** safe?

Compare your answers with the **TRAIN RULES** on the back!

An 8-car passenger train traveling at 79 MPH takes a mile or more to stop!

A freight train traveling at 55 MPH takes a mile or more to stop!

TRAINS CANNOT STOP QUICKLY!

- Trains are private property. Be safe – don't trespass.
- Stay off railroad cars and tracks: it's against the law.
- Don't play on railroad bridges.
- Putting things on train tracks is dangerous.
- It is not safe to walk between the cars of standing trains.
- Throwing items at trains is not safe.
- Stay out of railroad tunnels!

TRAIN RULES

What's **NOT** safe?

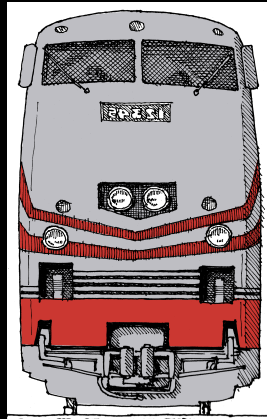

What **IS** safe?

- Watch for railroad signs and lights.
- Only cross at marked crossings. Walk bicycles across after looking both ways.
- Listen for train whistles and bells.
- If you are in a car stuck on the tracks, get out fast and move far away!
