

TRANSPORTATION ENGINEER
City of Portland, Maine
Department of Public Services

This position is a highly responsible managerial and professional position involved with the design, review and oversight of transportation capital improvements and traffic system operations. Work includes the review and evaluation of new development initiatives. Will work with and supervise a team of technical and professional staff in the development, maintenance, and operations of the City's traffic, streets and sidewalk programs. This position reports to the Director of Public Services. **Requirements:** Graduation from an accredited four (4) year college or university with a degree in civil engineering and major course work in traffic/transportation engineering and proven experience in traffic engineering at the managerial level; excellent communication and collaboration skills; registration as a Professional Engineer in the State of Maine or ability to possess within one (1) year of employment. Must possess and maintain a valid State of Maine Class C driver's license. Salary range: \$54,346 to \$72,793 depending on qualifications plus 6% differential for licensure as a Professional Engineer in the State of Maine. Send cover letter and resume to the Human Resources Office, Room 115, City Hall, 389 Congress Street, Portland, ME 04101, fax (207) 874-8937 **by no later than October 8th**. The City of Portland is an Equal Employment Opportunity employer.
